

Vineyards at Tenuta Köfererhof

ALTO ADIGE

VARNA (Province of Bolzano)

There was little snow in the winter. In the springtime there was a lot of rain. The weather was perfect in August, September and October till the harvest. It was not too warm and during the harvest it was cool.

Tenuta Köfererhof (Alto Adige Valle Isarco DOC, Gewürztraminer, Kerner, Müller Thurgau, Pinot Grigio, Riesling, Sylvaner, Veltliner): “.....at the end of September we picked Müller Thurgau. Kerner and Pinot Grigio were picked starting at the beginning of October till the end of the month. Veltliner, Sylvaner and Gewürztraminer were picked at the end of October. Riesling was picked at the beginning of November. The grapes were healthy, ripe, with ripe polyphenols. The grape yield was 8-10 tons/hectare. The wines are fruity with a good freshness and acidity. The alcohol strength is very well integrated. We produced the whole range of wines. 2016 is a very good vintage and can be compared to 2012.....”
